A Course In Miracles

HEAL & AWAKEN

It is time to remember who we are and from what we were made. This course is designed to re-formalize all of innate knowledge held within each. Through this collective learning you will learn to dissolve all distortion manifestations and return to innocence, only this time you will have become wise. Wisdom matched with a pure heart will unlock the secrets of all creation and the purpose of why we are here.

The Most Beautiful Love Story Ever Created

In the remote corners of our minds there has always been a wondering, a longing to return to something more visceral. This life....this living...What is it for? If we are all destined to return to the earth and become as dust. Does the wind remember.... when it builds it's little dust storms that it is dancing with us.

Can imagination transport us to a place where anything is possible. It is my feeling that indeed it can. But only with a very precise set of circumstances. A state of being that has been long forgotten.

In the beginning there was darkness. Only a flicker of an idea. And then came the energy. The energy that propelled the wish. As it took form it began to shine. In the blackest of darkness we find the great void, the nothingness. This is what we perceive as loneliness and separation.

The great spark, the idea was to create love. To find a way to fill the darkness with light. To take that emptiness and create a new type of energy. To build a coherence. The universe is like a beautiful grand experiment. Each piece and part holds within it the micro and the macro that extends to the farthest reaches. From the planets which orbit giant stars to the atom.

The quest has only ever been to meet one purpose. To heal and to learn to become love. A heart, a body, the soul will not rest until it finds this perfect place to surrender to it completely.
